

# The Plantation V-1 Series

Beautiful... And Affordable

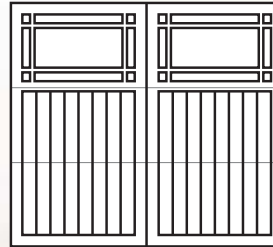

Garage Doors, Incorporated introduces the new Plantation V-1 Series of carriage style doors. This new entry into the custom wood garage door market is actually quite remarkable. These doors are lighter and cost substantially less than others now available and have a construction entirely of mahogany. Our production methods for these models are so unique that several patents are pending on them.

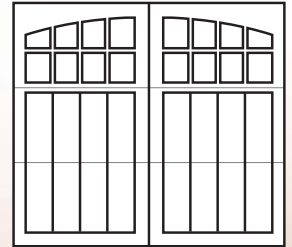

The Plantation V-1 is available in all sizes through 20 feet wide, and in paint or stain grade. Other features include insulation, priming, custom glazing, custom design matching, custom decorative hardware packages, and more.

The addition of the Plantation V-1 gives architects and home builders a significant strategic advantage as they strive to offer homes that are a cut above the rest. It also gives homeowners an excellent and affordable choice as they upgrade their homes.
